A history of the combative military, diplomatic, and economic relations among China, Japan, and the United States since the 1970s—and the potential crisis that awaits them

Richard McGregor's *Asia's Reckoning* is a compelling account of the widening geopolitical cracks in a region that has flourished under an American security umbrella for more than half a century. and political capitals on every continent. Richard McGregor's book takes us behind the headlines of his years reporting as the *Financial Times*'s Beijing and Washington bureau chief to show how American power will stand or fall on its ability to hold its ground in Asia.
