How to Grow Cannabis at Home A Guide to Indoor Medical Marijuana Growing

How to Grow Cannabis at Home: A Guide to Indoor Medical Marijuana Growing Download Online eBook Glenn Panik Free eBook PDF/ePub/Mobi/Mp3/Txt, This book provides a step-by-step guide to successfully cultivating cannabis and an informative read about all aspects of this healthful plant. It is not a gardening tips book, but a guide to help you through each stage of a project that is not rocket science, but has it's pitfalls. Additionally, this ebook serves as a reference/guide to the overwhelming jargon you will run into if research the topic online, for example: What are HPS, CFL, and LED lighting? What is the significance of light cycles? Nitrogen, Phosphorus, Potassium, Magnesium!?! Which of the hundreds of seed types should I choose? Cannabis Sativa? Cannabis Indica? Cannabis Ruderalis!?! Should I choose a "feminized" strain? An "autoflowering" strain? What is the best "medicinal" strain? Ahhh! Help!!

This book is aimed at the inquisitive-minded grower. Understanding the various facets of the process becomes both an engaging learning experience and a method to improve your growing results. Written in 2012, the book reflects the current stand of seed strains, lighting technology, growing enclosures, fertilizers, etc. Throughout the text, there are informative side bars that clarify myth vs. fact about the home cultivation of marijuana. If you do any research online, you are likely to find conflicting information about growing cannabis; this book will help clarify these conundrums using factual information. Supplement your own research with this well composed and concise book written by a successful home cultivator.
