"We go in search of that which we already possess, but are not using." So says Ernest Holmes, author of THE SCIENCE OF MIND and founder of the philosophy of Religious Science. God is not far away, but is within ourselves, other people, and everywhere present. Why then, do we fall prey to unwanted conditions - illness, financial lack, relationship difficulties, loneliness and problems of every kind? Written as a manual for the practical applications of the principles set forth in *The Science of Mind*, this book takes the original philosophy of "change your thinking, change your life," and explains a clear and definite scientific method of prayer that can help you overcome life's obstacles.

Dr. Ernest Holmes (1887-1960) is known to millions as a great leader and teacher; and to even more as the author of many inspirational books and tapes, such as *Creative Mind*, *This Thing Called Life*, and *The Science of Mind*. A teacher, writer, and lecturer; Dr. Holmes founded the Science of Mind philosophy in 1927, and regularly appeared on television and radio. His signature saying, "There is a power greater than you in the universe, and you can use it," became well known over the years. By taking a clear and simple approach in researching the wisdom of the ages from many disciplines, Ernest Holmes developed a practical, spiritual approach to living an abundant life and created the Science of Mind. Since early 1900's, the *Science of Mind Textbook* has been the cornerstone to Religious Science churches around the world.
