I Love Capitalism is a fascinating, and very down to earth, real life story about a billionaire named Ken Langone. Ken Langone started out from small beginnings, a humble family and an education he struggled to achieve. His story is one of hard work, and an honest approach, testifying to the fact that he believes in making money. In Ken's opinion capitalism should not be a dirty word, but rather the core vision that drives young people today. Ken Langone speaks openly on news forums and answered questions about his new outspoken book encouraging capitalism. He is not ashamed of being wealthy and it is through his monetary gain he has been able to be a philanthropist. This book, I Love Capitalism, is one of the recent New York Times best sellers. According to Washington Post reporter Thomas Heath, this book writes positively about how people build a business. Ken Langone, and the people he surrounds himself with, are responsible for

his success, and are the backbone of the book.
