The ruins of the technologically-advanced, eerily-enigmatic ancient civilization promise their discoverer fame, fortune, and power... but hold earth-shattering secrets about the origin of man.

While world-famous linguist and archaeologist, Thomas Lourds, is shooting a film that dramatizes his flamboyant life and scientific achievements, satellites spot impossibly ancient ruins along the Spanish coast. Lourds knows exactly what it means: the Lost Continent of Atlantis has been found. The race is on, and Lourds' challengers will do anything to get there first.

Whoever controls the Lost Continent will control the world.

About the Author:

Charles Brokaw is a pseudonym for an author, academic, and college educator living in the Midwest. He's had a rich and varied life, and is fascinated by history, human accomplishment, and archeology. He began the book The Atlantis Code after seeing an article in a scholarly journal. The piece featured a satellite photo, and pointed out ruins visible in Spain which matched closely the description of Atlantis relayed in the writings of Plato. Because the ruins were located in a famous national park, he was certain they would never be explored. That got him thinking about just what treasures are buried beneath the earth. The result was The Atlantis Code. The book is the author's first published adventure thriller.
