"A rousing wake-up call . . . this highly engaging, provocative book prove[s] beyond a reasonable doubt that millions of lives depend on us finally coming to terms with the long-term consequences of childhood adversity and toxic stress."—Michelle Alexander, author of *The New Jim Crow*

Dr. Nadine Burke Harris was already known as a crusading physician delivering targeted care to vulnerable children. But it was Diego—a boy who had stopped growing after a sexual assault—who galvanized her journey to uncover the connections between toxic stress and lifelong illnesses.

The stunning news of Burke Harris's research is just how deeply our bodies can be imprinted by ACEs—adverse childhood experiences like abuse, neglect, parental addiction, mental illness, and divorce. Childhood adversity changes our *biological* systems, and lasts a lifetime. For anyone who has faced a difficult childhood, or who cares about the millions of children who do, the fascinating scientific insight and innovative, acclaimed health interventions in *The Deepest Well* represent vitally important hope for preventing lifelong illness for those we love and for generations to come.

"Nadine Burke Harris . . . offers a new set of tools, based in science, that can help each of us heal ourselves, our children, and our world."—Paul Tough, author of *How Children Succeed*

"A powerful—even indispensable—frame to both understand and respond more effectively to our most serious social ills."—*New York Times*
