"It's going to happen," said former National Defense University Professor Dan Kuehl.
So much of the world's activity takes place on the internet now – including commerce, banking and communications -- the Pentagon has declared war in cyberspace an inevitability. For more than a year, Washington Post reporter Robert O'Harrow has explored the threats proliferating in our digital universe. This ebook, *Zero Day: The Threat in Cyberspace*, is a compilation of that reporting. With chapters built around real people, including hackers, security researchers and corporate executives, this book will help regular people, lawmakers and businesses better understand the mind-bending challenge of keeping the internet safe from hackers and security breaches -- and all out war.
